About the College

Debra Thana Sahid Kshudiram Smriti Mahavidyalaya was established in 2006 with the motto 'education, enlightenment, and character'. Its chief objective is to kindle a light in the darkness of mere being. Named after the famous Bengali revolutionary Kshudiram Bose (1889 – 1908), the College has committed itself to the goal of providing quality education to the students who are generally coming from a relatively backward region. A majority of our students are not only economically backward but are also first-generation learners. Apart from imparting formal education, emphasis is given to extracurricular activities also. We believe that our students are a storehouse of talents. A lot of activities are arranged throughout the year to polish and nurture them. Our dedicated faculty members attempt wholeheartedly to inspire the students. Our College is one of the colleges affiliated to Vidyasagar University offering under-graduate fourteen Honours and four General Courses in Science and Arts, two Professional Courses (BCA &

Theme:

In the culture of any society, there are values upon which its identity rests. Actions of social institutions and individuals focus upon them. They unite what is fragmented and universalize what is individual and temporary. Such values are called central or core values of a society. They determine the quality of a given society and its cultural specificity. Each new generation enters the heritage of previous generations and adds something new to it but in compliance with the values that have already been provided. Material products and behaviour are subject to constant change but values that are the basis for their formation remain and continue to stimulate new actions. The seminar aims to explore the core values embedded in Indian culture – how it remains creative and open to new challenges and alert to the signs of the times. In other words, the seminar will seek to analyze how fidelity to roots helps us to create an organic synthesis of perennial values, confirmed so often in history, and the challenges of today's world.
